That's fine, thanks.

Dean,

Unfortunately, I was just notified that the laboratory was not able to meet the holding time for TSS and TDS for a subset of your samples. They were analyzed a day after holding time. The analyst's judgment is that there isn't a significant impact to data, but would like to proceed with reporting the data with a "J" flag for estimation. Please let me know if this resolution is acceptable for you.

Thanks

Robert Thompson
